September 22, 2014

Dear Tara,

It is with great enthusiasm that I write this letter to acknowledge you and your school. As the owner of Angels Health Institute and as an educator of nutritional therapy throughout the Western US I wish to congratulate you on putting together a superior course in Colon Hydrotherapy. I have personally worked with your previous students and became passionate about the industry as well. I am amazed at the organization and professionalism of your teaching and I am grateful for you going beyond colon therapy instruction to solidly grounding the concept, practices and procedures related into the educational programs.

Thank you for all of your hard work!

Sincerely,

Peggy McDonnell
